Assessment of Team Contributions
Engineering 6806 – ECE Design Project

D. K. Peters & S. O'Young

Deadline for submission: 1700 Monday Oct. 15, 2007

Name: _____

Student #: _____

Team Name: _____

This form is entirely confidential when completed.

In assigning marks for the project part of the course to individual students, we will be taking into account each team member's opinion of the relative contributions of the members of the team. For that purpose we ask you to fill out the following questionnaire as honestly as you can. **Note that the sum of all contributions must be 100.** You should include yourself in the list of team members, but should be aware that inflating your own contribution will not improve your mark.

Team Member	Relative contribution %
Sum	100

Below, and on the back of the page if necessary, please briefly justify the allocation you made above and feel free to make any other comments on team-work within your team.
