

MEMORIAL UNIVERSITY OF NEWFOUNDLAND

Three-year Term Appointment in Process (Oil and Gas) Engineering

Applications are invited for a 3-year term faculty position in the area of process engineering with oil and gas specialization at the assistant- or associate professor-level, commencing April 12, 2010 or earliest thereafter. Salary and rank will be commensurate with qualifications and experience.

The successful applicant will be expected to teach effectively at the graduate and undergraduate levels in the area of oil and gas, and process engineering, to supervise graduate students, to participate in other educational, scholarly and professional activities. The successful applicant will also be expected to develop a research capability in the area of oil and gas engineering, and/or hydrocarbon processing, working in conjunction with other researchers in the INCO Innovation Centre at Memorial University and liaising with members of the oil and gas, and processing industries. The Faculty of Engineering and Applied Science has developed a new undergraduate program in process engineering, and the successful applicant will be expected to provide leadership to this initiative.

Applicants must have an earned PhD degree in petroleum engineering, process engineering, chemical engineering, or a cognate area with research and development interests in areas of oil and gas processing. Experience working in, or collaborating with, the oil and gas industry will be an asset. The successful applicant will be expected to register as a professional engineer in Newfoundland and Labrador.

The Faculty of Engineering and Applied Science offers accredited undergraduate programs in civil engineering, computer engineering, electrical engineering, mechanical engineering, ocean and naval architectural engineering, and process engineering, following a fully-integrated co-operative education model. An offshore oil and gas engineering option is offered as a part of every engineering undergraduate program, with the exception of process engineering. Thesis-based and course-based master's programs, as well as doctoral programs are offered in the various engineering disciplines. For more information on the Faculty of Engineering and Applied Science, visit www.engr.mun.ca.

Memorial University is the largest university in Atlantic Canada. As the province's only university, Memorial plays an integral role in the educational and cultural life of Newfoundland and Labrador. Offering diverse undergraduate and graduate programs to almost 18,000 students, Memorial provides a distinctive and stimulating environment for learning in St. John's, a very safe, friendly city with great historic charm, a vibrant cultural life, and easy access to a wide range of outdoor activities. For further information about Memorial, please view the website at www.mun.ca.

Applicants should send a curriculum vita, names and contact information of three referees, a one-page statement of teaching and research interests, and copies of three relevant technical publications to:

Dr. John Quicoe, Dean (Pro tempore)
Faculty of Engineering and Applied Science
Memorial University of Newfoundland
St. John's, Newfoundland, Canada, A1B 3X5
Fax # (709) 737-8975
REFERENCE: ENGI-2009-007

Complete applications must be received by Feb. 5, 2010.

All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents of Canada will be given priority. Memorial University is committed to employment equity and encourages applications from qualified women and men, visible minorities, Aboriginal Peoples and persons with disabilities.
