Communication *Office-hour visits or inquiries to the instructor's MUN email.*

1 Course Assessment

Progress Report 1	15%	Due: June 5
Progress Report 2	15%	Due: July 5
Presentation	20%	To be determined, Aug. 5–9
Final report	50%	Due: Aug. 9

- These dates are tentative and subject to change.
- There are project deliverables and demos during the last two weeks of the term.
- Late submissions are not accepted. In case of emergency situations such as illness, childbirth, or bereavement, or by prior arrangement with the instructor, submissions can be rescheduled.

1.1 Progress Reports

These are short reports (6 pages maximum, 1.5 line spacing, 11–12 point font, 1-inch margin on all sides) that include only new information and work completed since the last report submission.

1.2 Presentation

This is a 20-minute presentation of your final work, to be held in the last week or so of the term. You will be expected to have appropriate slides or other visual aids.

1.3 Final Report

Final report for the term (no page limit, 1.5 line spacing, 11–12 point font, 1-inch margin on all sides). Must include a complete literature review, along with any design, testing, verification,

achievements and experiences, questions and answers from the terms work, as well as a schedule and plan for future work.

2 Student Behaviour

Students will be held to high standards of academic integrity.

2.1 Academic Integrity and University Policy

Students in this course are bound by University policies on academic integrity and student behaviour. Please review these policies to ensure compliance.

2.1.1 The Memorial University of Newfoundland Code

All members of the Memorial University of Newfoundland Community, which includes students, faculty, and staff, shall treat others with respect and fairness, be responsible and honest, and uphold the highest standards of academic integrity.

<http://www.mun.ca/regoff/calendar/sectionNo=GENINFO-1502>

2.1.2 Student Code of Conduct

Like Professional Engineers, engineering students are expected to behave in a professional manner at all times. Students are encouraged to conduct themselves in a manner consistent with the PEG-NL Code of Ethics.

Memorial University has two sets of rules which deal with inappropriate behaviour by students. The first set deals with academic offences such as cheating while the other set deals with non-academic offences such as disruptive behaviour in class.

Both sets of rules can be found in the University Calendar under Regulations. It is strongly recommended that students read and follow these rules because the penalties can be severe, the severest being expulsion from the University.

<https://www.mun.ca/engineering/undergrad/policies/CodeOfConduct.pdf>

2.1.3 Academic Dishonesty

Any instance of academic dishonesty will be reported to the Faculty. Academic dishonesty includes copying, allowing your work to be copied, unauthorized working in groups, and failing to correctly cite sources.

Academic dishonesty will, as a minimum, result in a mark of zero for the offending work and a penalty equal to the amount the assignment, test, etc. was worth. For example, if you copy on a test worth 20%, 20% will be subtracted from your final mark.
