Student #: _____

Software Engineering 7893 — Student background Survey
Spring 2004

*Information on this sheet is **not** confidential.*

1. (For non CE students only) What software related courses have you taken? (Include names)

2. Have you ever been paid to write software or otherwise worked seriously on software outside of course work?

If yes, answer the following about that project. (If more than one project, list the project(s) that were largest in terms of lines of code, development effort, and number of developers.)

a) Briefly describe the nature of the project.

b) How many developers were involved in the software team(s)?

c) What language(s) were used?

d) Estimate the number of lines of code in the product when you left the team.

3. Rate your familiarity with the following topics, on a scale of 1–10.

Topic	Never heard of it 1	2	3	4	5	6	7	8	9	Expert 10
Java										
C++										
UML										
JavaDoc										
Rational Rose										
JUnit										
Context free grammars										

4. If you wish to be on the same team as some other student, put their name below. (Note that this request will only be honoured if **both** members of a pair list each other, so talk it over first.)
