OUR TEAM

Aimee Trahey

Aimee Trahey is a senior civil engineering student at Memorial University. Her focus has been on structural engineering, and she has gained much experience in this field through previous work experiences. Some key projects Aimee has been apart of include the structural modeling and analysis of a tension leg platform in the Gulf of Mexico, a complete turn-over of the structural portion of a Sulphur Plant in Northern Alberta, the design on a purging system for an oil company in Alberta, and various maintenance projects for a nickel mine in Labrador.

Andrew Martin

Andrew Martin is currently enrolled in his final academic term of his Civil Engineering Co-Op program at Memorial University of Newfoundland. During Andrew's co-operative education program he has accumulated a large amount of experience was gained while being employed with the Department of Transportation and Works. He also spent four work terms being employed with the large contracting company Peter Kiewit Sons Co., both here in Newfoundland and in Alberta, Canada.

Andrew Temple

Andrew Temple is a Term 8 Civil Engineering student at Memorial University. He has gained experience through his co-op engineering career in project management and environmental remediation, with Public Works and Government Services Canada, Municipal Engineering with the City of Mount Pearl. He has also worked at Vale Inco's Hydrometallurgical Demonstration Plant. Andrew's experience and hard work make him invaluable to Parallel Engineering.

Paula Bromley

Paula Bromley is a Senior Civil Engineering student at Memorial University. Her technical strengths lie in the field of geotechnical and materials engineering. Through her work terms in the Co-op program she has gained experience and knowledge in materials testing and placement including concrete, asphalt, and soils. Her latestes experience involved providing Quality Control of materials being produced and placed for the upgrading of a section of the Trans Labrador Highway.
