Proposed Project Title

New Crosbie Group Corporate Headquarters

Description of Project

Crosbie Group of Companies is building a new 28,500 square foot (9,500 ft2 per floor) corporate headquarters. The building will be conventional steel construction with composite panel and metal siding exterior finishes. The building sits on a 2.3 Acre site that will be fully developed.

Requirement of Student Group

This project will require the student group to design the concrete foundation including rebar, the structural steel framing (3 Storeys) and the civil work.

The civil design will include cut and fills, grading plan, storm water management, concrete curb and asphalt.
